

# Usage Guidelines

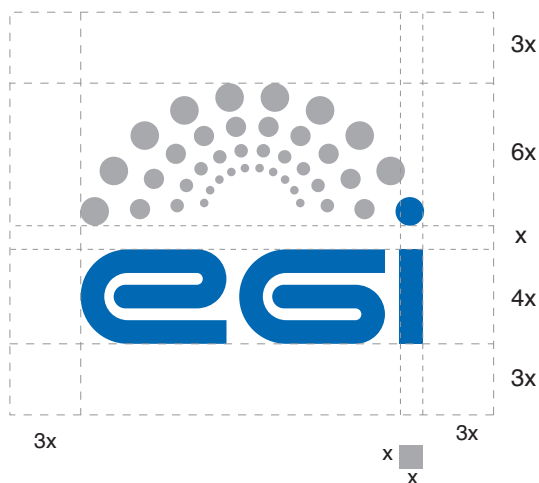

## Logo of EGI.eu

This logo is an essential part of EGI.eu's image and identity. Please do not distort the proportion of the logo, change the colour or alter the logo in any other way.

The EGI.eu logo is a two-colour logo designed to be used on a white background. If a white background is not possible, then a light colour is preferred.

The colours used in the logo are specified at the bottom of this page.

Please ensure there is enough clearance space ('white space') around the logo.

The clear space shown around the logo on the left is the preferred distance between the logo and any design or graphic elements placed next to it.

Requests for specific applications of the logo, other file versions of the logo, etc., please contact: [press@egi.eu](mailto:press@egi.eu)
