EGI Marketplace

Expose your services to a broader audience

The EGI Marketplace is an online platform for exposing promoting services to new scientific and market segments.

The Marketplace offers all the necessary functionalities for bringing together offering and demand to make research happen.

The services available cover the areas of Compute, Storage and Data.

The Marketplace also provides Applications on demand and Training modules.

All services are provided by the EGI Federation and partner institutions.

✓ Increased awareness

Make your services more visible to your target markets

✓ Simple

Configure and manage your services easily

✓ Customizable

Tailor your services to reach specific audiences

✓ Innovative

Develop the innovation potential of your service offer

A marketplace to promote services for research

We believe that offering an easy access to top scientific computing resources is essential for service providers to stay competitive.

The EGI Marketplace is the place for them to enhance visibility of their services, raising awareness of what they can offer, as well as helping to promote cross-disciplinary research.

Benefits for service providers:

- > Showcase your services to new markets and grow your user base
- > Increase the exploitability and innovation capacity of your service offerings
- > Be part of a community of like-minded service providers
- > Collaborate with other organisations to improve resources and services
- > Promote cross-disciplinary research

Registration process:

- > To register your services, please send an e-mail to **marketplace-support@egi.eu**

or

- > Take this survey: **go.egi.eu/marketplace**

You will then be contacted by our team to discuss further steps needed to make your service visible in the EGI Marketplace.
